

- 4 digit flow rate indicator, 6 digit flow totaliser
- Inputs : 0~20 mA, 4~20 mA, 0~5 volts, 1~5 volts, 0~10 volts, 0~10 khz
- Two batch relays, two flow alarm relays
- Programmable flow rate, setpoints and relay modes, etc.
- Application : Monitoring and controlling continuous as well as batch flow processes
- Isolated programmable 4~20 mA retransmission output
- RS 485 / MODBUS
- Password protected programming and reset
- Programmable start, stop, reset functions

SPECIFICATIONS All specifications at ambient of 25 °C, unless specified otherwise
